Diagram illustrating the cross-section of a tree pit installation. The diagram shows a tree in a container or B&B (Burlap and B&B) being placed into a pit. The pit is filled with backfill as specified, and the top is covered with 3" mulch. A slight berm for drainage is shown on the left. The finish grade is indicated. The mulch is to be 1/2" below the sidewalk. A roll down 1/3 of burlap is shown on the right. The space between the trees is as shown on plan.
